This course follows on from the material taught during the 2-year Professional Training Course and takes you to a deeper level in understanding the Yuen Hom Style and the 64 hexagrams. It is the basis for many courses taught by Master Chan.

- Gain a deeper understanding of the 64 hexagrams - A fuller understanding of the 64 hexagrams will provide valuable insights into the strengths and limitations of a property and give you a wider choice of tools to balance a property.
- 6 children robbery - Using the "6 children robbery" method, learn to angle doors, beds and desks to enhance health, wealth, relationships, career and children.
- Special Forms – Learn more about the Site Empty Facing Full Form and ways of dealing with it. Also, learn to align the hexagrams at the site, front door and back door to create powerful forms such as: Heaven-Earth Form; Fire-Water Form; Restoring the Dying to Life Form and many more.
- Leader and Assistants – When the site kua (Leader) is weak, Assistants are needed to support and strengthen the property. Learn how to select these assistants and use them to benefit the property and the occupants.
- Date Selection - The knowledge contained in this course is invaluable for selecting dates. It gives you more insights on how to make Date Selection more precise, accurate and powerful.
- Yuen Hom Hexagram Flying Star – This is a more detailed method of flying star which is unique to every property.
- And much, much more.
